

DISABILITY ACTION BRIGADE

**calling all people with disabilities, deaf people,
elders, and allies**

Join us on **Wednesday November 2**, in solidarity with Occupy Oakland's General Strike, for a Teach-In and protest of impending State and Federal budget cuts that impact our community.

We will convene near the right (north) side of City Hall at Oscar Grant Plaza at **2pm**. Look for our Disability Action Brigade signs. We will march a short distance at a slow pace to a site where we will have an occupation and teach-in to alert the public about the potential impacts of the impending trigger cuts on our community, and how we have borne the burden of unbalanced budgets for decades.

Beginning at 5:30 pm, those of us who are able, will go to the Port of Oakland. A van shuttle will provide wheelchair accessible transportation. We will do our best to provide accessible transportation both to and from the Port. At the Port we will join the larger group of Occupy Oakland to shut it down and disrupt business as usual. We will determine a location to support the shut-down together as a large presence of elders and people with disabilities. Our intent is to create a safe space where people who are more vulnerable can participate without threat to our safety, while supporting the larger group.

This group is committed to non-violence
while maintaining a militant stand against the 1%.

Please respect the principles of non-violence when protesting with us.

We are working hard to secure ASL interpretation, but cannot guarantee it will be present. We are looking into Spanish and Mandarin interpretation as well.

In order to provide a fully accessible action,
please help us maintain a smoke and scent free space.

If you have any other access needs or other questions, please contact us at 510-686-3139. CUIDO: Communities United in Defense of Olmstead
